

## Storm Data and Unusual Weather Phenomena - November 2021

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

### OKLAHOMA, Panhandle

#### (OK-Z001) CIMARRON, (OK-Z002) TEXAS, (OK-Z003) BEAVER

11/01/21 00:00 CST	0	Drought
11/30/21 23:59 CST	0	

November 2021 was an extremely dry month for the combined Oklahoma and Texas Panhandles. With the exception of a few places that got a couple to few hundredths of an inch in the first three or four days of the month, the majority of the Panhandles were completely without precipitation. Rangelands and pastures remained dormant through the month with supplemental feeding necessary. The continuing dry period was adversely impacting winter wheat in unirrigated fields.

### TEXAS, North Panhandle

#### (TX-Z013) CARSON, (TX-Z020) COLLINGSWORTH

11/01/21 00:00 CST	0	Drought
11/30/21 23:59 CST	0	

November 2021 was an extremely dry month for the combined Oklahoma and Texas Panhandles. Rangelands and pastures remained dormant through the month with supplemental feeding necessary. The continuing dry period was adversely impacting winter wheat in unirrigated fields.

#### (TX-Z015) WHEELER

11/17/21 14:28 CST	0	Wildfire
11/17/21 20:00 CST	1	0

Worsening drought conditions along with periods of strong and gusty winds and low relative humidity values ahead of cold fronts resulted in initial attack wildfires across the Texas and Oklahoma Panhandles.

#### (TX-Z003) HANSFORD, (TX-Z008) HUTCHINSON, (TX-Z009) ROBERTS, (TX-Z016) DEAF SMITH, (TX-Z017) RANDALL COUNTY

11/23/21 12:00 CST	0	Drought
