

Storm Data and Unusual Weather Phenomena - June 2018

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
NORTH DAKOTA, Central and West				
STARK COUNTY --- 1.4 W DICKINSON [46.88, -102.81]				
	06/01/18 13:30 MST	0		Hail (1.00 in)
	06/01/18 13:33 MST	0		Source: Public
MCKENZIE COUNTY --- 6.3 WSW GRASSY BUTTE [47.36, -103.37]				
	06/01/18 14:29 MST	0		Funnel Cloud
	06/01/18 14:32 MST	0		Source: Storm Chaser
MCKENZIE COUNTY --- 13.2 S WATFORD CITY [47.61, -103.25]				
	06/01/18 14:52 MST	0		Hail (1.00 in)
	06/01/18 14:55 MST	0		Source: Law Enforcement
DUNN COUNTY --- 7.7 NNW KILLDEER [47.47, -102.84], 7.7 NNW KILLDEER [47.47, -102.83]				
	06/01/18 15:26 MST	0		Tornado (EF0, L: 0.30 mi , W: 50 yd)
	06/01/18 15:27 MST	0		Source: Law Enforcement
This was the first of two tornadoes in Dunn County this day. This tornado remained in an open field. No damage occurred and so it was rated EF0. A second tornado in Dunn County later this day was rated EF2.				
GRANT COUNTY --- 13.0 NNW CARSON [46.60, -101.65]				
	06/01/18 15:30 MST	0		Hail (1.00 in)
	06/01/18 15:33 MST	0		Source: Public
DUNN COUNTY --- 9.0 N KILLDEER [47.50, -102.75], 12.5 N KILLDEER [47.55, -102.74]				
	06/01/18 15:34 MST	0.18M		Tornado (EF2, L: 3.49 mi , W: 200 yd)
	06/01/18 15:42 MST	0		Source: Emergency Manager
This was the second of two tornadoes in Dunn County this day. The earlier tornado hit nothing and so was rated EF0. This second tornado was rated EF2. It initially struck a mobile home shortly after it touched down, completely destroying the structure. Based on that damage the tornado at this location was EF2. From that EF2 rating the winds were estimated at 125 mph. No one was home at the time so there were no injuries or deaths at this location. The tornado then proceeded generally northward to a farmstead, where a stock trailer was flipped, a truck was pushed 200 yards through a fence, and an old out-building was completely destroyed. At the farm the damage corresponded to EF1. There were no injuries or deaths as all on the farm reached safety before the tornado struck. The tornado then continued to the north until it dissipated. The overall tornado rating is EF2.				
DUNN COUNTY --- 12.5 N KILLDEER [47.55, -102.74]				
	06/01/18 15:41 MST	0		Hail (1.50 in)

	06/14/18 21:37 CST	0		Source: Public
A potent short wave trough approached the Northern Plains where very strong instability and deep layer shear were noted. One long-lived severe storm developed in the morning over northwest North Dakota, but the bulk of the severe weather held off until later in the afternoon. Severe thunderstorms then developed over multiple locations in western and central North Dakota from the mid-afternoon into the evening hours. The largest hail fell in Bottineau County and was three inches in diameter. The strongest wind gust of 71 mph occurred in Emmons County.

MORTON COUNTY --- GLEN ULLIN [46.82, -101.83]				
	06/26/18 19:56 CST		25K	Thunderstorm Wind (EG 65 kt)
	06/26/18 19:59 CST		0	Source: Law Enforcement
Several large trees and numerous branches were down in the city of Glen Ullin, caused by the high wind. There was a tornado north of the city around the same time. The tornado itself impacted no structures and was rated EF0. A wind gust of 66 mph was measured at the Glen Ullin airport. The high wind at the airport and through the city was associated with the Rear Flank Downdraft of the tornado and not the tornado itself.				
MERCER COUNTY --- 2.1 NNW BEULAH [47.30, -101.79]

	06/26/18 22:00 MST		0.25M	Source: Law Enforcement
Widespread damage was reported in and around Hettinger. A car dealership with approximately 50 vehicles sustained heavy damage. Broken windows were reported throughout town. Significant crop damage occurred around the area.				
ADAMS COUNTY --- HAYNES [45.97, -102.47]				
	06/26/18 22:10 MST		0	Hail (1.00 in)
	06/26/18 22:13 MST		0	Source: Public
A narrow axis of enhanced instability developed ahead of an approaching cold front. The instability then expanded eastward, with deep layer shear increasing. Widespread severe weather developed over western and portions of central North Dakota, with multiple reports of damage. Extensive damage occurred in the city of Hettinger, where many homes and a car dealership with around 50 cars suffered losses. The largest hail was baseball size, and fell over Adams County, while the strongest wind gust of 75 mph occurred in Morton County. There was also an EF0 tornado near Glen Ullin, Morton County.

Over seven inches of rain fell in the Roseglen and White Shield areas. This led to water flowing through the lower areas of these communities. Damage was described as minor and confined to a few basements. The terrain, very hilly, allowed water to flow into lower areas where there were few if any structures, and away from buildings.

Fire Department Officials estimated thunderstorm wind gusts of 65 mph.				

An extremely unstable atmosphere combined with very strong deep layer wind shear set the stage for intense thunderstorm development. Initially, thunderstorms were supercells, and formed along a warm front that lifted through North Dakota in the afternoon and evening hours. One of the supercell thunderstorms produced flash flooding in Dunn and Mercer counties, while another produced 3.50 inch diameter hail over Wells County. During the evening and overnight hours a line of intense thunderstorms developed along a cold front that swept into western North Dakota, and tracked eastward across the state. Widespread wind damage occurred throughout much of western and central North Dakota, but the strongest winds centralized generally along and about 20 miles north and south of Highway 200, where episodes of microburst enhanced winds occurred. Within this corridor, many grain bins were lost, farm buildings and campers damaged or destroyed, and trees uprooted or snapped. The greatest wind damage occurred near Stanton, Mercer County, where a microburst with estimated 130 mph winds destroyed a farm. One fatality occurred at Heckers Lake in McLean County as an individual was outside a camper, and the camper tipped over onto him. There were also four injuries in that area around New Johns and Heckers lakes where many campers were damaged or destroyed, some being blown into the lakes.
