

Storm Data and Unusual Weather Phenomena - August 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
ALABAMA, Central				
(AL-Z028) CLAY, (AL-Z029) RANDOLPH, (AL-Z037) TALLAPOOSA, (AL-Z038) CHAMBERS, (AL-Z044) MONTGOMERY, (AL-Z045) MACON, (AL-Z046) BULLOCK, (AL-Z047) LEE, (AL-Z048) RUSSELL, (AL-Z049) PIKE, (AL-Z050) BARBOUR				
	08/01/11 00:00 CST		0	Drought
	08/31/11 23:59 CST		0	
<p>Below normal rainfall persisted across central Alabama during the month of August. This caused drought conditions to continue for most counties and strengthen in some. By the end of the month Lee, Russell, Barbour, Randolph, Clay, Tallapoosa, Macon, Montgomery, Pike, Chambers, and Bullock Counties were under an Extreme (D3) drought.</p>				
(AL-Z023) TUSCALOOSA, (AL-Z024) JEFFERSON, (AL-Z025) SHELBY, (AL-Z027) TALLADEGA, (AL-Z032) HALE, (AL-Z033) PERRY, (AL-Z034) BIBB, (AL-Z035) CHILTON, (AL-Z036) COOSA, (AL-Z040) DALLAS, (AL-Z041) AUTAUGA, (AL-Z043) ELMORE				
	08/02/11 00:00 CST		0	Drought
	08/31/11 23:59 CST		0	
<p>Very little rain fell across central Alabama during the month of August, resulting in drought conditions spreading to a larger portion of the area. By the end of the month Talladega, Shelby, Bibb, Tuscaloosa, Hale, Perry, Chilton, Dallas, Autauga, Elmore, and Coosa Counties were all under Extreme (D3) drought conditions.</p>				
BLOUNT COUNTY --- 1.4 N BLOUNTSVILLE [34.10, -86.58]

Storm Data and Unusual Weather Phenomena - August 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

A MCS interacted with a stalled front across southern Tennessee, enhancing thunderstorms as they pushed southward into north Central Alabama early Thursday morning. These storms resulted in isolated damaging winds during the early morning hours. The front slowly sank southward through the day and interacted with additional impulses rotating around a large area of high pressure anchored west of Alabama. This interaction sparked another round of thunderstorms in the unstable air mass during the afternoon, resulting in isolated damaging winds.

MARION COUNTY --- 0.7 N HAMILTON [34.14, -87.98]

	08/07/11 18:25 CST		4K	Thunderstorm Wind (EG 50 kt)
	08/07/11 18:25 CST		0	Source: State Official

Several trees were knocked down in and around Hamilton.

BLOUNT COUNTY --- 2.1 NNW NECTOR [33.98, -86.64]

	08/07/11 19:20 CST		7K	Thunderstorm Wind (EG 43 kt)
	08/07/11 19:20 CST		0	Source: State Official

Strong winds caused minor roof damage to a store in Nectar.

WALKER COUNTY --- 0.9 NW CORDOVA [33.76, -87.19]

	08/07/11 19:42 CST		1K	Thunderstorm Wind (EG 50 kt)
	08/07/11 19:42 CST		0	Source: Broadcast Media

A tree was knocked down onto powerlines in Cordova.

JEFFERSON COUNTY --- 1.3 WNW HILL VIEW [33.58, -86.90]

	08/07/11 19:55 CST		1K	Thunderstorm Wind (EG 50 kt)

A tree was knocked down onto powerlines in Forestdale.

JEFFERSON COUNTY --- 0.6 E SPAULDING [33.38, -86.96]

	08/07/11 20:18 CST		3K	Thunderstorm Wind (EG 50 kt)
	08/07/11 20:18 CST		0	Source: Public

Trees were knocked down in and around Bessemer.

An outflow boundary from convection in the Mid Missouri River Valley moved south into Central Alabama and interacted with a moist and buoyant air mass. A line of thunderstorms developed across north Central Alabama and produced scattered wind damage as it pushed southward.

MONTGOMERY COUNTY --- 2.2 SSE MONTGOMERY [32.35, -86.29]

	08/08/11 16:35 CST		2K	Thunderstorm Wind (EG 45 kt)
	08/08/11 16:35 CST		0	Source: Emergency Manager

Trees and power lines were knocked down on and around the Huntingdon College campus.

Active northwesterly flow around a strong ridge anchored to the west of Central Alabama continued to bring MCS's and outflow boundaries into the area. An outflow boundary from morning thunderstorms moved southeastward, interacting with a moist and unstable air mass across south Central Alabama. During the late afternoon and evening hours, widespread showers and thunderstorms formed across much of the southeast portion of the area, producing isolated wind damage.

PICKENS COUNTY --- 1.9 SW COCHRANE [33.05, -88.27]

	08/10/11 13:00 CST		1K	Thunderstorm Wind (EG 50 kt)
	08/10/11 13:00 CST		0	Source: Emergency Manager

A tree was knocked down along Highway 17 near the intersection of Highway 32.

PERRY COUNTY --- 0.7 N SPROTT [32.68, -87.22]

	08/10/11 15:12 CST		4K	Thunderstorm Wind (EG 50 kt)
	08/10/11 15:12 CST		0	Source: Emergency Manager

Numerous trees were knocked down across Perry county, mainly affecting locations north of Marion, including the community of Sprott.

Storm Data and Unusual Weather Phenomena - August 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
PERRY COUNTY --- 1.9 NNW SUTTLE [32.56, -87.19]				
	08/10/11 15:20 CST		3K	Thunderstorm Wind (EG 50 kt)
	08/10/11 15:20 CST		0	Source: Emergency Manager
Several trees were knocked down along County Road 6 and County Road 10 in southwest Perry county.				
DALLAS COUNTY --- 1.9 NNE SELMA SKYHARBOR ARPT [32.40, -87.09]				
	08/10/11 15:30 CST		1K	Thunderstorm Wind (EG 50 kt)

	08/10/11 15:35 CST		1K	Thunderstorm Wind (EG 50 kt)
	08/10/11 15:35 CST		0	Source: State Official
Trees were knocked down along County Road 139.				
PICKENS COUNTY --- 0.7 S CARROLLTON [33.26, -88.10]				
	08/10/11 16:25 CST		7K	Thunderstorm Wind (EG 50 kt)
	08/10/11 16:25 CST		0	Source: Emergency Manager
Numerous trees were knocked down across a significant portion of Pickens county, including in and around the cities of Carrollton and Aliceville, resulting in power and telephone line outages.				
Persistent northwesterly flow around a strong ridge continued to bring mesoscale convective systems (MCS) and outflow boundaries into Central Alabama. On Wednesday, August 10, an outflow boundary from convection upstream moved into the area and interacted with an unstable air mass producing several clusters of thunderstorms. As the activity moved southwestward, isolated wind damage occurred across portions of west and southwest Central Alabama.				
PIKE COUNTY --- 0.6 E CHINA GROVE [32.03, -85.94]				
	08/11/11 17:45 CST		0	Thunderstorm Wind (MG 50 kt)

TALLAPOOSA COUNTY --- 0.7 NNW WALNUT HILL [32.71, -85.78]				
	08/11/11 17:47 CST		5K	Thunderstorm Wind (EG 50 kt)
	08/11/11 17:47 CST		0	Source: Emergency Manager
Several trees and powerlines were knocked down the Walnut Hill near the intersection of County Roads 50 and 49.				
ELMORE COUNTY --- 1.4 ESE WETUMPKA [32.54, -86.20]				
	08/13/11 16:20 CST		5K	Thunderstorm Wind (EG 43 kt)
	08/13/11 16:20 CST		0	Source: Broadcast Media
The south end zone fence was blown down and stadium lights received damage at the Hohenburg Football stadium.				
The northwesterly flow pattern remained active across Central Alabama, bringing outflow boundaries and cloud cover to much of the area. On the afternoons of Thursday, August 11 and Saturday, August 13, outflow and differential heating boundaries aided in the development of pulse thunderstorms in a moist and unstable air mass over southeastern portions of the area.				
JEFFERSON COUNTY --- 1.3 NNE MORGAN [33.35, -86.92]				
	08/20/11 14:43 CST		0.50K	Thunderstorm Wind (EG 43 kt)
	08/20/11 14:43 CST		0	Source: Trained Spotter
The top portion of a tree snapped off and fell onto Hilltop Road.				
On Saturday, August 20, diurnally driven thunderstorms developed across Central Alabama, initiating along outflow boundaries from the previous day's convection initially. Although the thunderstorms remained below severe limits on this day, isolated damage was reported.				
CHILTON COUNTY --- 4.5 ESE KINCHEON [32.73, -86.63]				

Storm Data and Unusual Weather Phenomena - August 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	08/21/11 14:20 CST		12K	Thunderstorm Wind (EG 50 kt)
	08/21/11 14:20 CST		0	Source: Emergency Manager

Numerous trees were knocked down across south central Chilton county, blocking several county roads, including County Road 24, County Road 47, County Road 7 and County Road 49. In addition, the metal roof of several mobile homes along County Road 24 was partially removed.

CHILTON COUNTY --- 0.7 NNE CLANTON GRAGG ARPT [32.86, -86.61]

08/21/11 14:43 CST	0	Hail (0.88 in)

Several trees were knocked down along Pinedale Rd and the surrounding area.

DALLAS COUNTY --- 0.5 NNW POTTER [32.44, -87.10]

08/22/11 16:10 CST	12K	Thunderstorm Wind (EG 45 kt)
08/22/11 16:10 CST	0	Source: Emergency Manager

A couple large trees and power lines were knocked down in and around the Amazing Grace Mobile Home Park. In addition, the underpinning of several mobile homes sustained damage. A trampoline was blown several lots down and into the side of a mobile home, its legs puncturing the exterior wall of the mobile home.

A weak upper level disturbance and associated surface front moved across Central Alabama on Sunday, August 21. Scattered thunderstorms developed ahead of the short wave, causing isolated wind damage. The upper level disturbance quickly moved east of the area, leaving the front to slowly push southward during the day on Monday, August 22. South of this boundary, scattered thunderstorms developed again as a result of mesoscale boundary interactions within a moist and unstable airmass, resulting in isolated damage.

(AL-Z021) CLEBURNE, (AL-Z042) LOWNDES

08/23/11 00:00 CST	0	Drought
08/31/11 23:59 CST	0	

Very little rain fell across central Alabama during the month of August, resulting in severe drought conditions spreading across the area. On August 23rd, Cleburne County fell into a Severe (D2) drought and was quickly upgraded to Extreme (D3) drought on August 30th.

TUSCALOOSA COUNTY --- 6.4 SE SAMANTHA [33.34, -87.56]

08/24/11 18:25 CST	0.50K	Thunderstorm Wind (EG 35 kt)
08/24/11 18:25 CST	0	Source: Emergency Manager

A couple trees were knocked down around the Lake Tuscaloosa area.

Outflow boundaries from a Mesoscale Convective System over Arkansas pushed into Mississippi and aided in diurnally driven convection. Outflows from this activity allowed thunderstorm development to spread eastward into west Central Alabama by late afternoon. Isolated thunderstorms across the area resulted in isolated wind damage.

ALABAMA, North

(AL-Z001) LAUDERDALE, (AL-Z002) COLBERT, (AL-Z003) FRANKLIN, (AL-Z004) LAWRENCE, (AL-Z005) LIMESTONE, (AL-Z006) MADISON

08/02/11 13:00 CST	0	Heat
08/03/11 18:00 CST	2	0

During the afternoons of the 2nd and 3rd, heat index values reached 105 to 113 degrees in northwest and north central Alabama. On the 2nd, the temperature topped out at 100 degrees at the COOP observer's weather station in Muscle Shoals.

On the 3rd, ASOS weather stations recorded highs of 104 degrees at the Muscle Shoals Airport, 102 at Pryor Field in Decatur, and 101 at the Huntsville International Airport. The Muscle Shoals reading of 104 degree broke the record of 102 set in 1930. Automated COOP stations (HCN) recorded highs exceeding 100 degrees including Courtland (101), Muscle Shoals TVA (102) and Russellville (102). The COOP observer in Anderson recorded 100 degrees. The RAWS site in Bankhead National Forest reported 104 degrees while the COOP observer recorded 101 degrees in Moulton. The University of Alabama at Huntsville (MIPS) weather station co-located with the National Weather Service reported 102 degrees. On both mornings, lows were only in the lower to mid 70s in urban areas.

Storm Data and Unusual Weather Phenomena - August 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
MADISON COUNTY --- HARVEST [34.85, -86.77]				
	08/03/11 22:50 CST		5K	Thunderstorm Wind (EG 52 kt)
	08/03/11 22:54 CST		0	Source: Trained Spotter
A trained spotter reported that several trees and power lines were downed by thunderstorm winds.				
MADISON COUNTY --- HUNTSVILLE JONES ARP [34.63, -86.77]				
	08/03/11 23:04 CST		0	Thunderstorm Wind (MG 60 kt)
	08/03/11 23:05 CST		0	Source: ASOS
A severe thunderstorm wind gust of 69 mph was measured at the Huntsville International Airport.				
MADISON COUNTY --- HARVEST [34.85, -86.77]				
	08/03/11 23:15 CST		25K	Thunderstorm Wind (EG 60 kt)
	08/03/11 23:20 CST		0	Source: Emergency Manager
Several trees and power lines were downed by thunderstorm winds from Harvest to Madison, Alabama. A trampoline was blown over a house and landed on a vehicle in Harvest. Power lines were also downed by thunderstorm winds in Monrovia on Knotts Creek and Balch road and a utility pole was downed on Carter road in Harvest, Alabama.				
LIMESTONE COUNTY --- 1.8 NE SALEM [34.95, -87.10], 1.3 ESE ATHENS [34.79, -86.96]				
	08/03/11 23:18 CST		0.10M	Thunderstorm Wind (EG 70 kt)
	08/03/11 23:25 CST		0	Source: NWS Storm Survey
A storm survey indicated that peak winds of 70-80 mph produced significant tree damage along with numerous powerlines down and minor structural damage across a large portion of the county.				
MORGAN COUNTY --- 1.5 E TRINITY [34.62, -87.05], 0.6 N FAIRVIEW [34.59, -86.95]				
	08/03/11 23:18 CST		0.15M	Thunderstorm Wind (EG 96 kt)
	08/03/11 23:25 CST		0	Source: NWS Storm Survey
Significant severe thunderstorm winds snapped several wooden power poles near the base along highway 20. One concrete pole was knocked down to the ground and at least one small plane was flipped over at Pryor field. Many residents were without power for over a day due to the numerous trees and power lines that were downed in the area. Based on this evidence from a storm survey, it is estimated that peak winds approached 110 mph.				
MADISON COUNTY --- TRIANA [34.58, -86.75]				
	08/03/11 23:20 CST		5K	Thunderstorm Wind (EG 45 kt)
	08/03/11 23:24 CST		0	Source: Public
A tree was downed by thunderstorm winds.

Golf ball size hail was reported in the Albertville and Grant communities.				
<hr/>				
FRANKLIN COUNTY --- 6.0 E RED BAY [34.43, -88.02]				

Storm Data and Unusual Weather Phenomena - August 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	08/04/11 10:25 CST		1K	Thunderstorm Wind (EG 48 kt)
	08/04/11 10:30 CST		0	Source: Broadcast Media

The public estimated up to 55 mph wind gusts.

FRANKLIN COUNTY --- 5.0 WSW PHIL CAMPBELL [34.32, -87.78]				
	08/04/11 15:05 CST		20K	Thunderstorm Wind (EG 60 kt)
	08/04/11 15:10 CST		0	Source: Trained Spotter

Several trees were downed and a big section of roofing on a shed was blown off by thunderstorm winds.

COLBERT COUNTY --- 1.0 SE LEIGHTON [34.69, -87.51], 1.0 W MT NEW HOME [34.67, -87.54], 0.5 SSW MT NEW HOME [34.66, -87.52], 1.1 ENE MT NEW HOME [34.68, -87.50]				
	08/04/11 18:20 CST		0	Flash Flood (due to Heavy Rain)
	08/04/11 19:00 CST		0	Source: Law Enforcement

Several inches of water was over the road due to flash flooding along old highway 20, just southeast of Leighton near county line road.

A series of severe thunderstorms produced widespread wind damage. One of the storms knocked a tree down onto a mobile home, killing one occupant. Wind speeds up to 110 mph knocked a series of power poles down as well. Several power outages were reported due to lightning or trees being knocked down onto power lines.

(AL-Z006) MADISON				
	08/07/11 13:00 CST		0	Heat
	08/07/11 16:00 CST		0	

The heat index reached 105 to 109 degrees during the afternoon of the 7th in the Huntsville metro area.

LAUDERDALE COUNTY --- 1.7 NW PETERSVILLE [34.87, -87.70], 1.0 S THORTONTOWN [34.82, -87.35]
