A flea market, near the intersection of US-280 and CR-379, near Smiths Station, had several tents blown over, and several pieces of metal roofing blown off and thrown down stream.

A cold front pushing through the area brought numerous thunderstorms to Central Alabama, some of which produced large hail and damaging winds.

A severe thunderstorm ahead of a developing squall line produced winds between 60-70 MPH resulting in widespread wind damage in the Cherokee community. Several trees were blown down around in the area. Some trees were blocking portions of highway 72. Also, some structural damage occurred. This included damage to a sign at the Cherokee High School and a tree that fell on a home on Guthrie Street. Power outages were reported across the entire city. A railroad crossing was also damaged by the winds.

A bowing line of severe thunderstorms producing wind speeds between 60-70 MPH resulted in widespread wind damage across much of Franklin County AL. Numerous trees were blown down across the county as the sqall line pushed eastward. The hardest hit areas extended from Red Bay to Belgreen. The police in the Red Bay community reported that portable buildings were blown over at a school, numerous trees were down, and several cars were damaged. Some of these trees fell on houses. A tree was blown down onto a trailer on Highway 25, inflicting heavy damage. Fortunately, no one was in the mobile home when the tree fell.

A bowing line of severe thunderstorms producing winds between 60-70 MPH resulted in widespread wind damage across much of Colbert county. This system caused additional wind damage in the Cherokee area and across western portions of Colbert county. Damaging winds continued east along and ahead of the severe line of storms. Numerous power outages and downed trees were reported down across the county. A few power poles were knocked down by the damaging winds. Some structural damage to buildings, sheds, vehicles, and garages was reported, particularly in the Muscle Shoals and Cherokee areas. The roof was torn off the HR Block building on the corner of Avalon Avenue and Woodward Avenue in the Muscle Shoals area. Also, one person was injured at their house on Nashville Avenue. A thunderstorm wind gust of 67 mph was measured at the Northwest Alabama Regional Airport at the Muscle Shoals (MSL) ASOS at 22:17 CST.

 Source: NWS Storm Survey

A tornado touched down immediately west of Waldrep Loop and north of Lagrange Road in extreme southeastern Colbert County. Multiple large trees were snapped and uprooted along the path. The most significant damage occurred to a house along Waldrep Loop, where large sections of the roof structure were removed, or pushed off the adjoining carport. A chicken house across the street completely collapsed with roofing material tossed up to 100 yards. Tree damage continued eastward to the intersection of County Line and Wolf Springs Roads. A church at this intersection sustained roof damage and dozens of trees were snapped and uprooted around a nearby single family home.

LAWRENCE COUNTY --- 2.6 W WOLF SPGS [34.60, -87.51], 2.3 W WOLF SPGS [34.60, -87.51]

05/25/11 22:19 CST 0 Tornado (EF0, L: 0.23 mi , W: 100 yd)

05/25/11 22:21 CST 0 Source: NWS Storm Survey

A tornado continued from Colbert County at the intersection of County Line Road and Wolf Springs Road. The tornado snapped and uprooted trees before lifting.
