About 650 customers were reported without power between Somerville and Valhermoso Springs.

Clusters of strong to severe thunderstorms erupted around midday and lasted through much of the afternoon. There were some reports of wind damage and a fairly widespread area of power outages in central/northeastern Morgan county between Valhermoso Springs and southern portions of Somerville in north Alabama.

A tree was blown down on County Road 70.

A combination of high instability and above average deep layer shear for August with an upper level disturbance resulted in numerous showers and thunderstorms. Some storms were severe with damaging wind gusts.

Thunderstorms moved across southwest Alabama and produced damaging wind gusts.
