

Decision Support Briefing

→ As of 10:00 AM Thursday, August 22nd, 2024

NEW

Important Updates

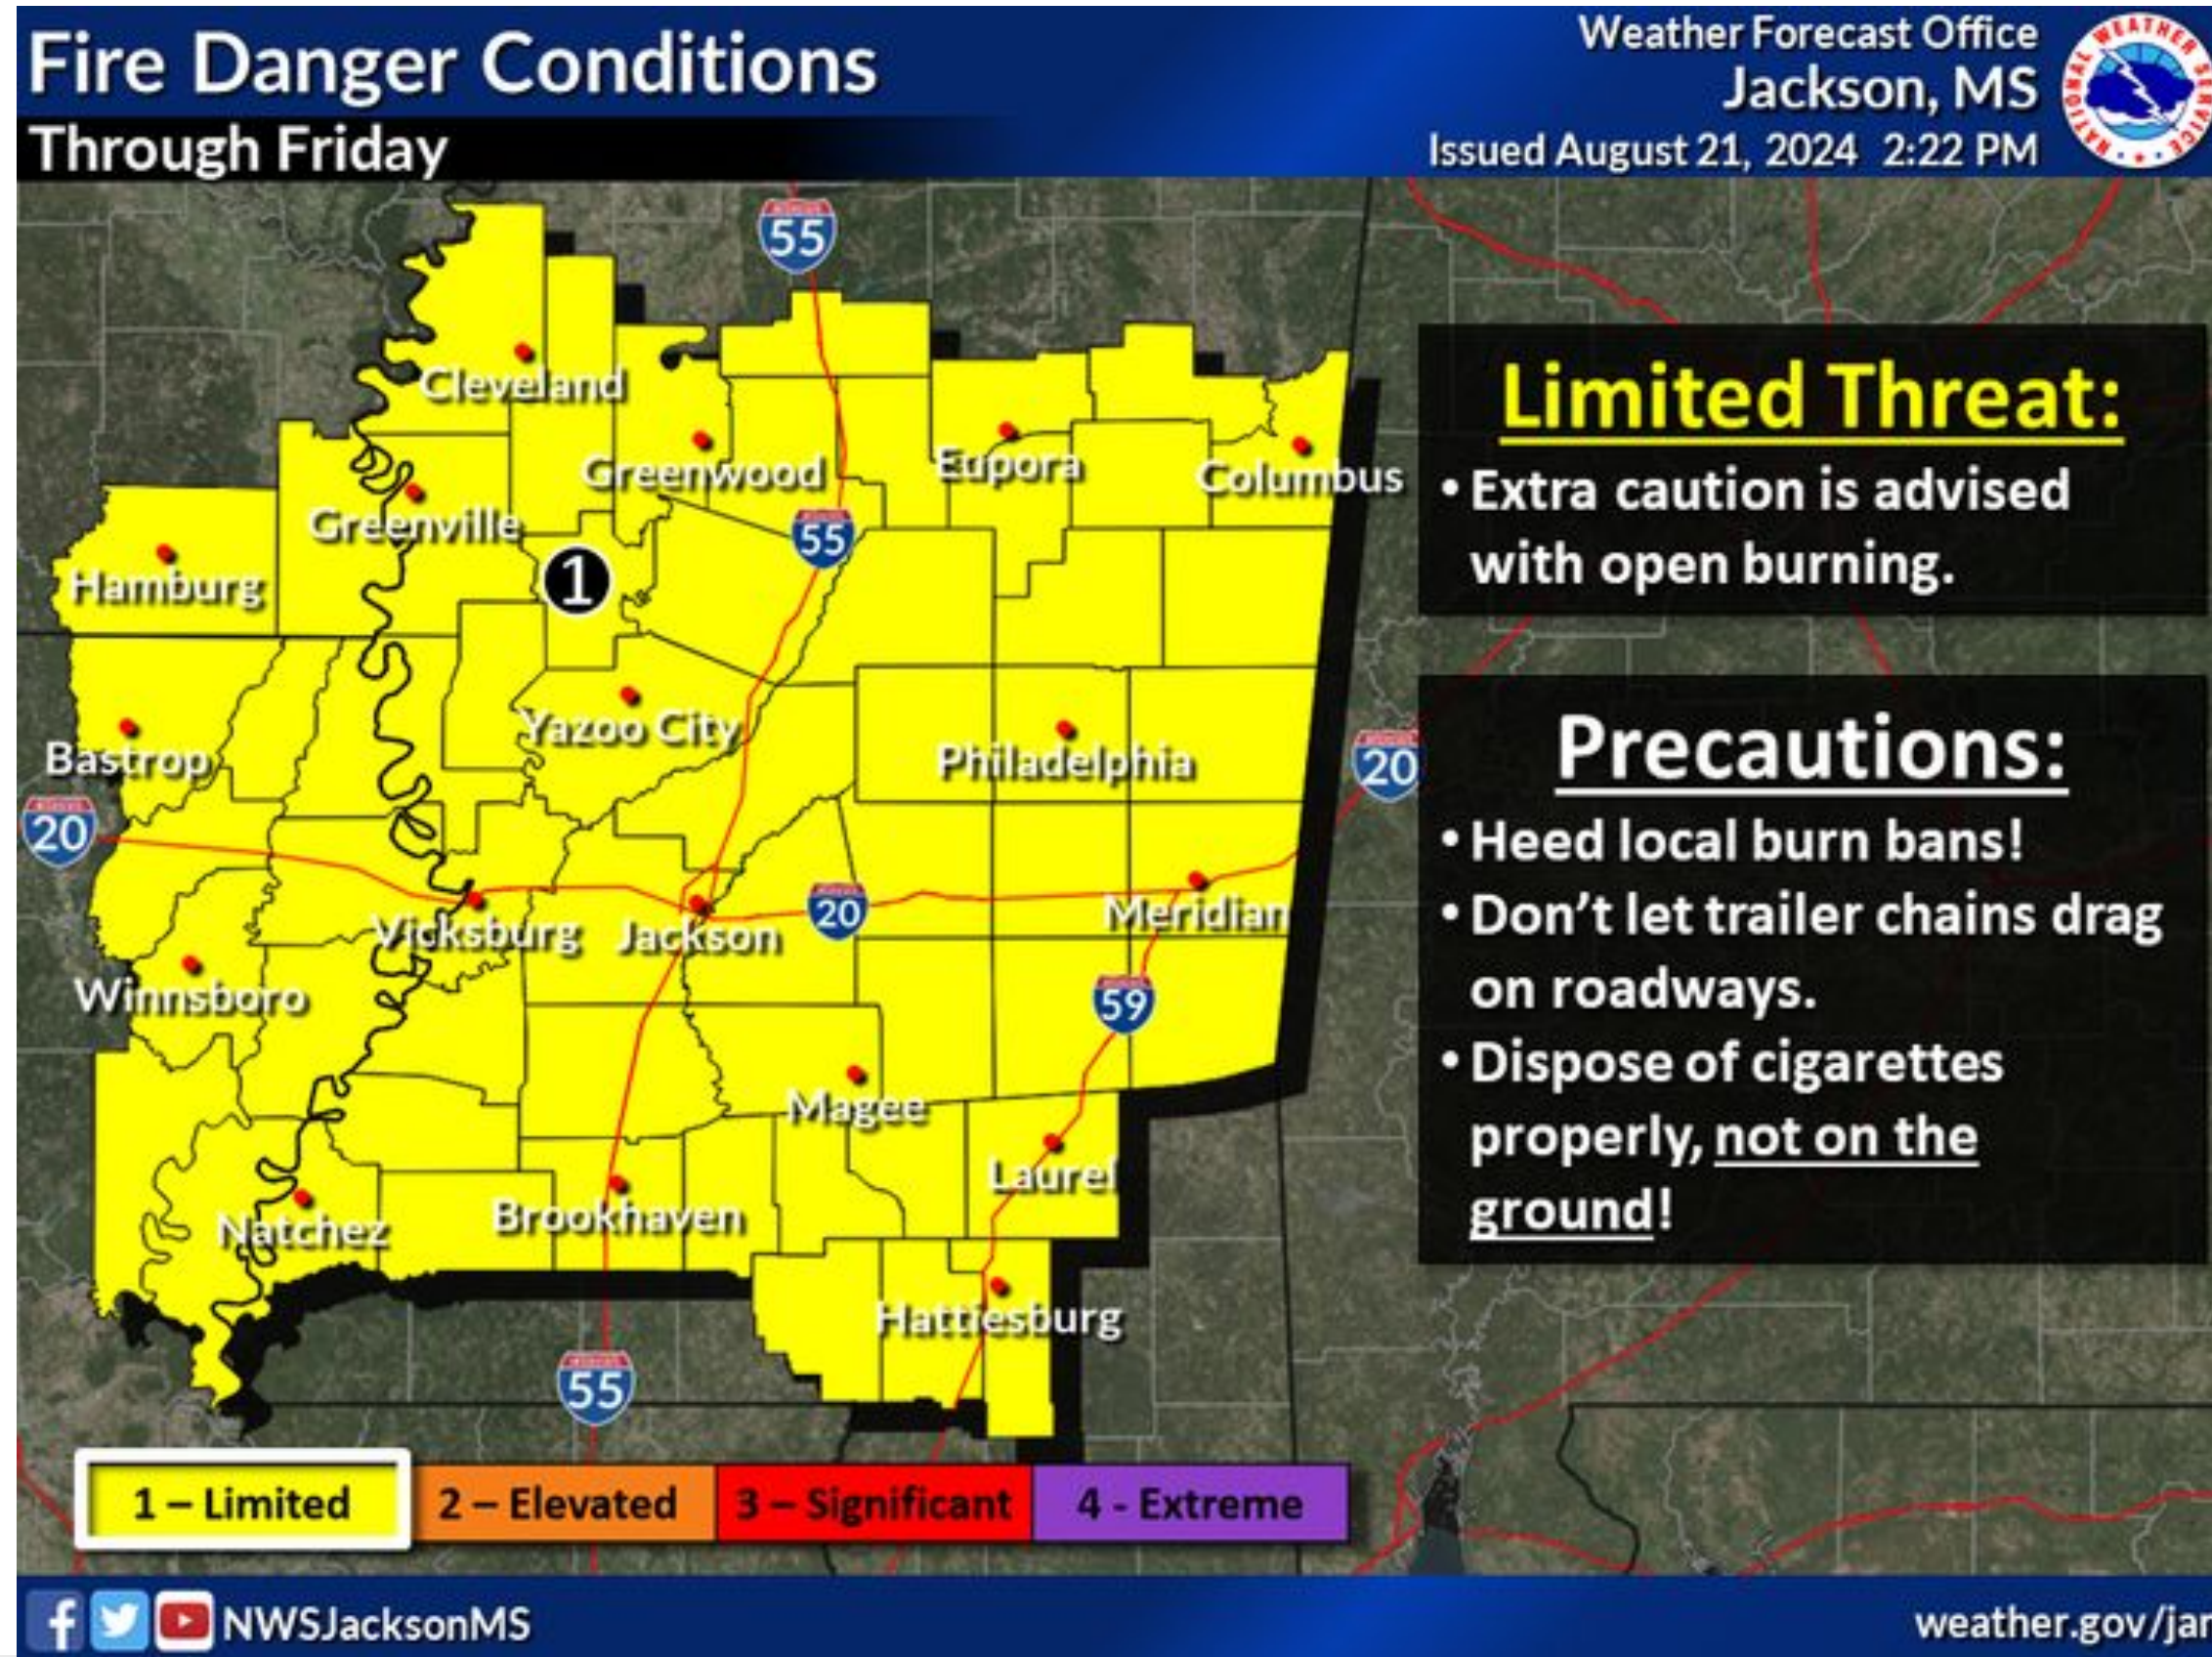

- Continued dry weather and limited fire danger will be the main focus of this forecast
- Increasing potential for dangerous heat next week
- By next week Monday, some rain chances (20-30%) return to the SE half
- Tropical Outlook

Fire Danger Conditions Today - Friday

August 22, 2024
10:00 AM

Limited fire danger conditions will persist through Friday with low humidity and breezy winds.

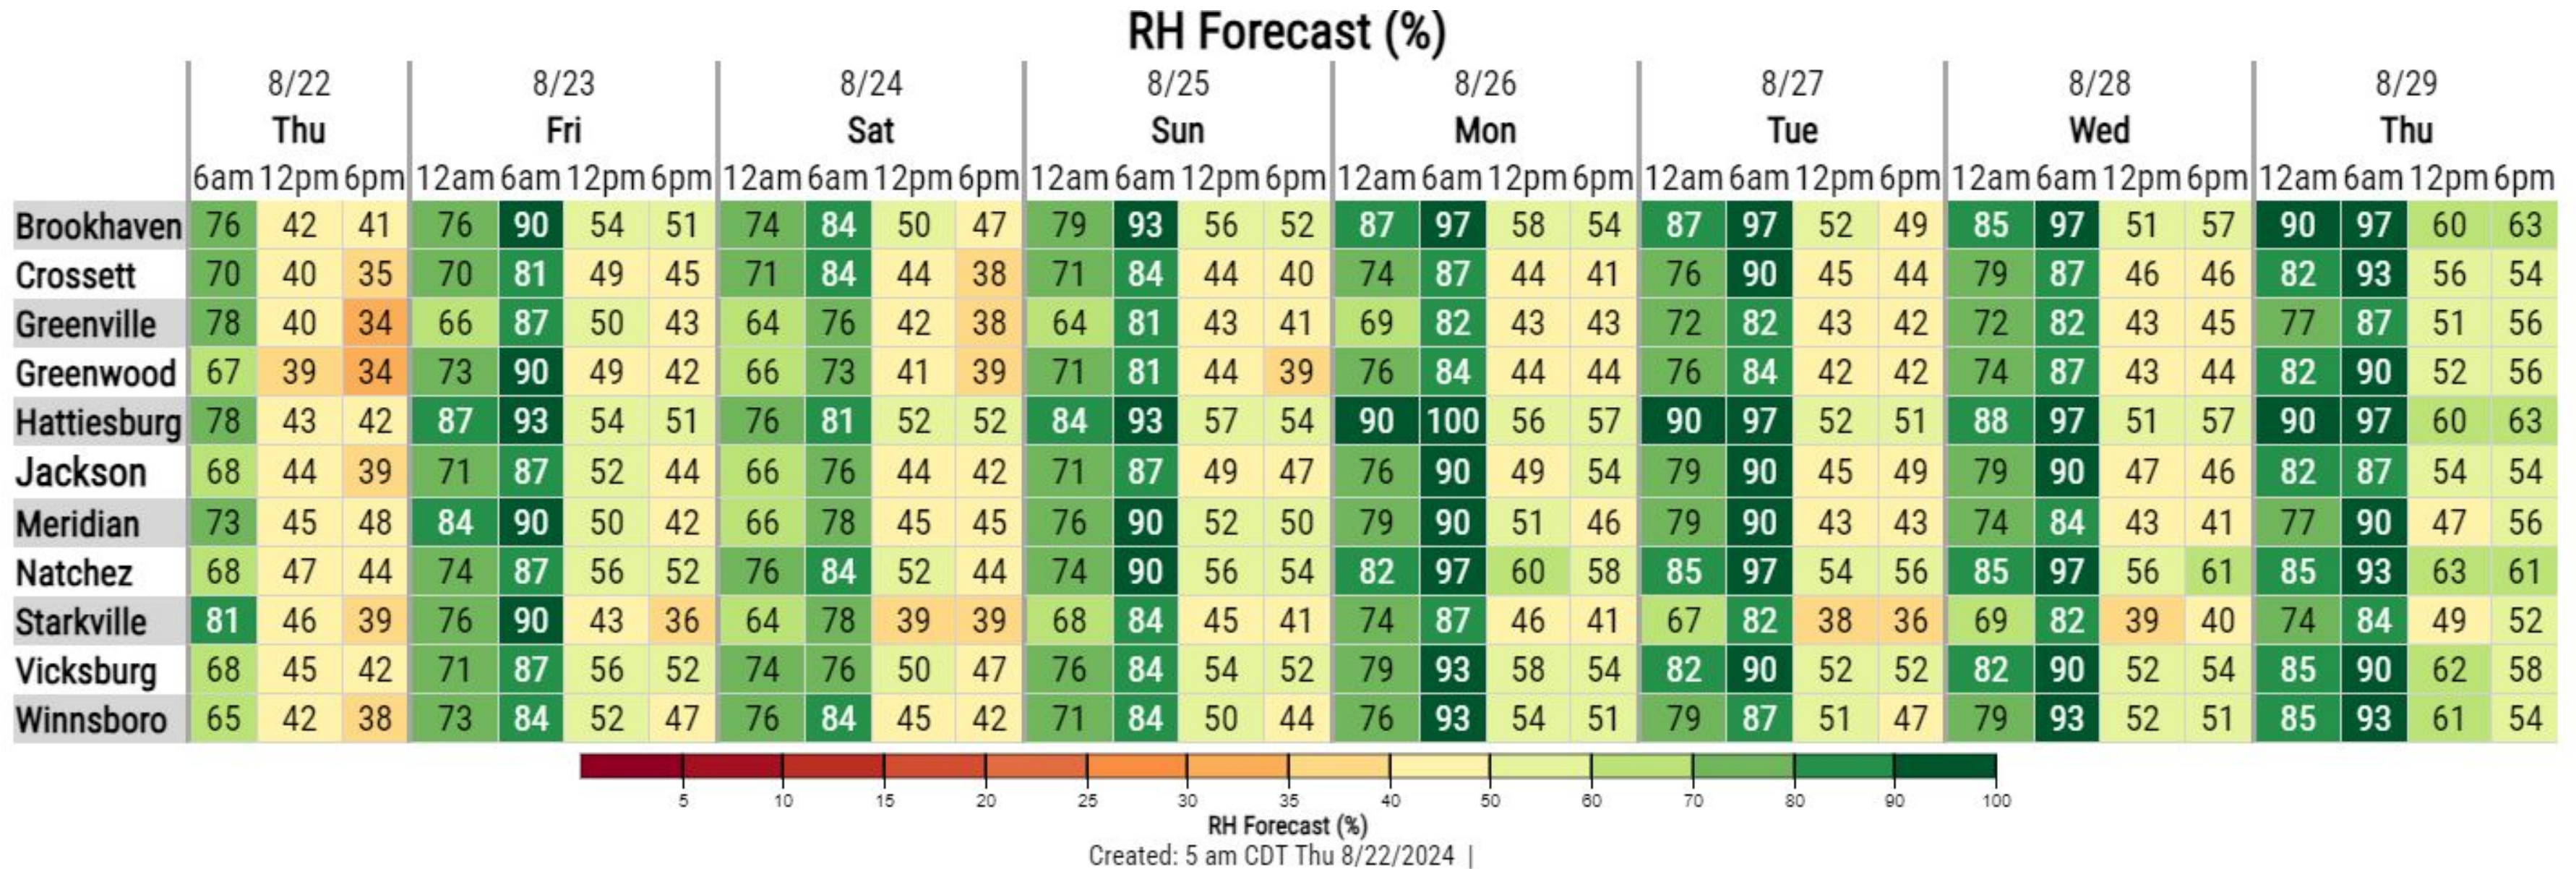

National Weather Service
Jackson, MS

Relative Humidity

August 22, 2024
10:00 AM

Low afternoon humidity is supporting fire danger through Friday.

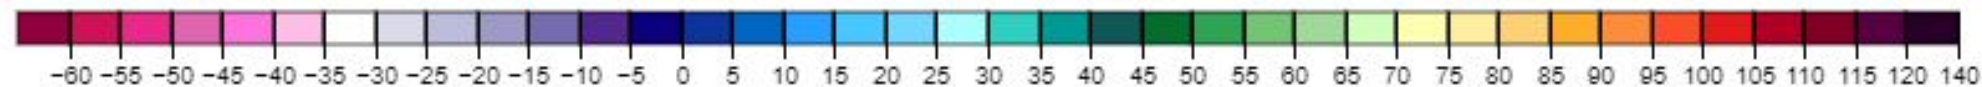

Heat - Next Week

August 22, 2024
10:00 AM

Heat will increase heading into next week due to low rain chances
