None.			

Parish Name Evangeline	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
None.			

Parish Name Saint Landry	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
None.			

Parish Name Avoyelles	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
None.			

Parish Name Rapides	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
None.			

Parish Name Vernon	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
None.			

County Name Jefferson	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
<p>Damage at Sea Rim State Park, which will be closed until at least July 20, 2024. Photos reveal storm surge of 1 to 2 feet above ground with marsh grass debris at least a foot high on the entrance gate. Welcome shed had lots of dead marsh grass piled up on the elevated porch, with a freezer that floated and was set back down leaning on debris underneath it. Maximum water levels from NOS sites reached: High Island, TX 3.27 feet MHHW; Texas Point 3.12 feet MHHW; Port Arthur 2.81 feet MHHW; and Rainbow Bridge 3.12 feet MHHW. Water likely covered most if not all of Highway 87 from Sea Rim State Park to Sabine Pass, TX.</p> <p>Emergency manager reported numerous power lines knocked down across the county due to the tropical storm force wind gusts.</p>			

County Name Orange	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
------------------------------	----------------	---------------------------------------	-------------------

In Bridge City, water was pushed from Sabine Lake into a subdivision, with water over roadways but not into homes. In Orange, flooding was reported due to the storm surge up the Sabine river backing up into the area. Elsewhere, two structures were damaged north of Vidor, both due to trees on structures. One destroyed and one with major damage. Numerous power lines were knocked down across the county from tropical storm force wind gusts.

County Name Hardin	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
------------------------------	----------------	---------------------------------------	-------------------

None.

County Name Tyler	Injuries: 0	Fatalities: 0 direct 0 indirect	Evacuations: 0
-----------------------------	----------------	---------------------------------------	-------------------

Rural areas of Northwest Tyler county experienced severe thunderstorm winds associated with the initial rainband of Beryl. The severe thunderstorm winds knocked down trees and powerlines, with approximately 1000 customers without power.

County Name Jasper	Injuries: 1	Fatalities: 0 direct 0 indirect	Evacuations: 0
------------------------------	----------------	---------------------------------------	-------------------

A National Weather Service storm survey revealed that an EF-2 tornado impacted areas near Jasper, Texas. The tornado touched down somewhere in the Little Walnut Run Valley and tracked 8.6 miles to the northwest lifting somewhere in the Indian Creek Valley. The tornado also tracked through the west side of the city of Jasper. Numerous power poles and trees were snapped or uprooted. Numerous homes and outbuildings were heavily damaged. The tornado weakened as it crossed Highway 190 in Jasper, only to regain EF-2 strength as it crossed Houston Street in a wooded area. There was one injury associated with this tornado.

County Name Newton	Injuries: 1	Fatalities: 0 direct 0 indirect	Evacuations: 0
Tropical storm force winds associated with Beryl knocked a tree into a house, injuring one person.
