Period of Record Information	
North Little Rock	
All Data	31 Dec 1975 to Present

The first weather observations in Little Rock were taken by William Woodruff, the founder of the *Arkansas Gazette*. In 1839, Army surgeons began taking periodic weather observations. Signal Service Observations began April 21, 1873, with the installation of a river gauge. A voluntary observer sent observations each day by telegraph. The first observer was Charlie Conradt, a riverboat Captain. In 1876, Albert Cohen, a local jeweler and watchmaker took over. In July 1879, a first-order signal service station was opened, and full observations have been taken daily since then. Little Rock Adams Field opened in the early 1930s, with hourly observations beginning January 15<sup>th</sup> 1933, taken by the Civil Aeronautics Authority (CAA). The Weather Bureau took over observations at Adams Field on December 2<sup>nd</sup>, 1938. The downtown office was kept open until 1942. The downtown office closed August 7, 1942. On December 15, 1975, the office relocated to the North Little Rock Airport.

## Location History of the Little Rock National Weather Service Forecast Office

From	To	Location	Latitude	Longitude	Elevation	Remarks/Observer
07/01/1879	02/28/1887	Stoddard Bank Building, Main and Markham Streets	34.7500 N	92.2667 W	286	U. S. Army Signal Corps Office
