Period of Record Information

Pine Bluff, Arkansas

All Data	01 Dec 1883 to Present
Notes:	
01 Dec 1883 to 13 May 1884	All data is from an unknown location in the city of Pine Bluff.
14 May 1884 to 30 Sep 1948	All data is from Pine Bluff Water Plant/Cooperative Observer site. Some data is taken from Madding, Arkansas or Cornerstone/New Gascony, Arkansas, 5 miles ENE of Pine Bluff Grider Field
01 Oct 1948 to 28 Feb 1974	All data is from Pine Bluff Grider Field
01 Mar 1974 to 27 May 1988	All data is from Pine Bluff Water Plant/Cooperative Observer site. Some data is threaded between the airport at the water plant between 1986 and May 1988.
28 May 1988 to 25 Sep 2000	All data is from Pine Bluff Grider Field
26 Sep 2000 to Present	Temperature and rainfall data is from Pine Bluff Grider Field. Snowfall data is from Pine Bluff Water Plant/Cooperative Observer site.

Pine Bluff, Jefferson County, Arkansas is located in the lower Arkansas River Valley. The terrain is mostly level...with an elevation between 200 and 250 feet above sea level.

Weather observations began in Pine Bluff as early as December 1883. Daily temperature observations began in Pine Bluff in May of 1884. Before that, data was sporadic. The observations were generally taken for agricultural purposes, beginning in March or April, and ending around October or November. Beginning in May of 1890, observations were taken on a more routine basis. Year-round observations began in February of 1895.

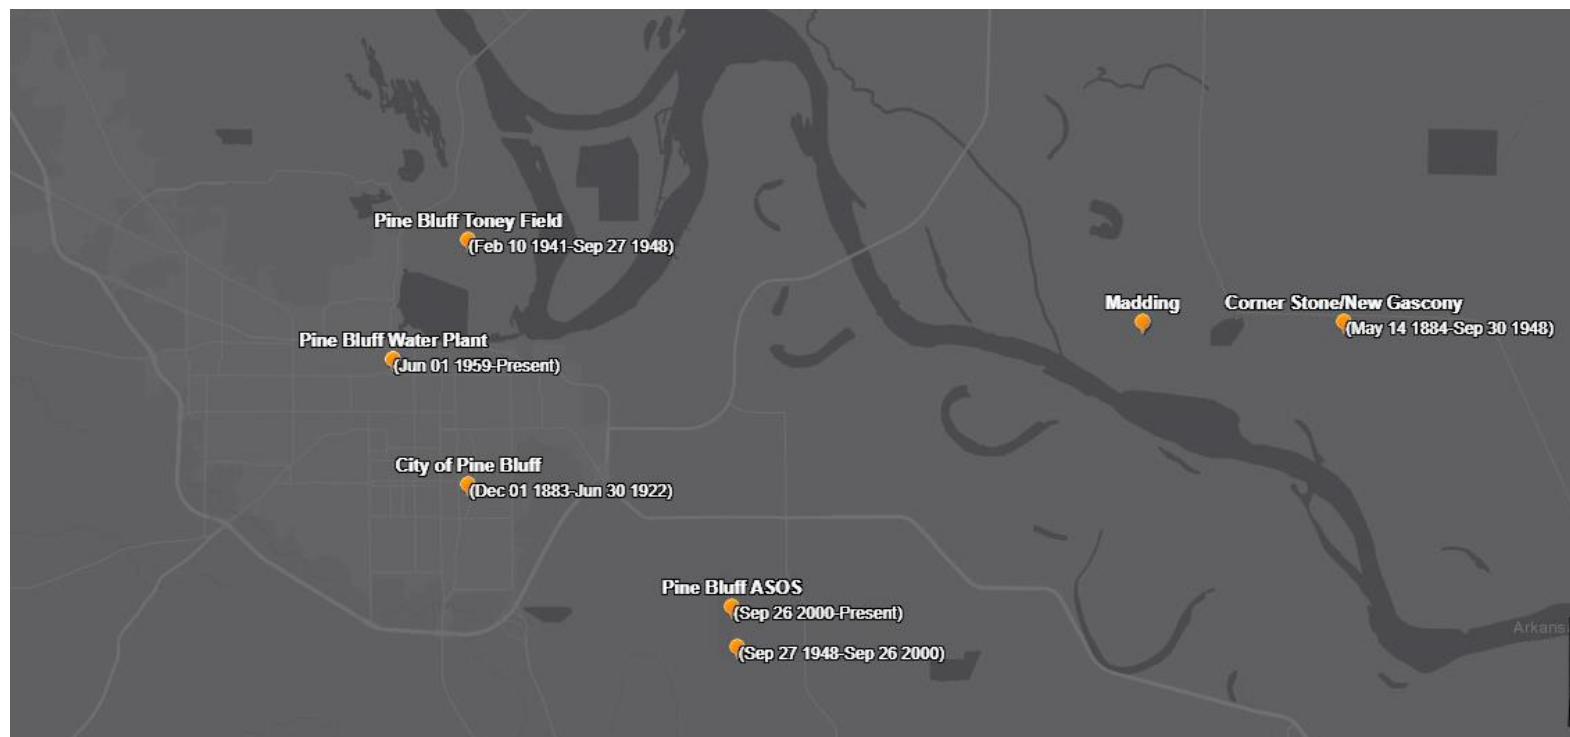

On February 10, 1941, a second order Airway station was opened at Pine Bluff Toney Field Airport. On September 27, 1948, a weather observatory opened at Pine Bluff Grider Field Airport, with observations recorded 24 hours a day, seven days a week. The station hours were reduced to part-time on March 15, 1974.

FAA flight services, along with the Air Traffic Control Tower shared observation responsibility until the tower's closure in September 1981. Flight services continued to take the observations until the Federal Contract Weather Observing Station (FCWOS) reopened on May 28, 1988.

On September 26, 2000, the Automated Surface Observing System (ASOS) was commissioned, bringing an end to human intervention in daily observations at the airport.
