Subject: Soliciting Comments on the Experimental Urban Rain Rate  
Dashboard through September 30, 2026

The National Weather Service (NWS) is soliciting comments on the  
Experimental Urban Rain Rate Dashboard through September 30, 2026.

The Urban Rain Rate Dashboard (URRD) is a website designed to provide  
automated guidance for major U.S. cities regarding the forecast  
probability of short-term rainfall amounts exceeding NOAA Atlas 14  
Average Recurrence Intervals (ARIs) or fixed precipitation rates. The  
ARI thresholds displayed on the website are 1, 2, 5, 10, and 100 year  
return intervals for durations between 1 to 12 hours, with fixed  
precipitation rates greater than or equal to 0.5", 1", 2", and 3" per 1-  
hour time periods.

The URRD is available at: <https://www.wpc.ncep.noaa.gov/urrd/>

A full description of the Experimental Urban Rain Rate Dashboard can be  
found at the following link:

[https://nsdesk.servicenowservices.com/api/g\\_noa/nwspc/res2/2603f3f347f3a654f6550c03e16d4367](https://nsdesk.servicenowservices.com/api/g_noa/nwspc/res2/2603f3f347f3a654f6550c03e16d4367)

Input on the Experimental Urban Rain Rate Dashboard is being sought from  
users.
