UPDATE

Quarterly Update of Current 2018-2019 **El Niño Watch**: A Regional Perspective

NOAA's Climate Prediction Center is issuing an El Niño Watch today, putting us all on notice that the climate pattern could take hold in the coming six months.

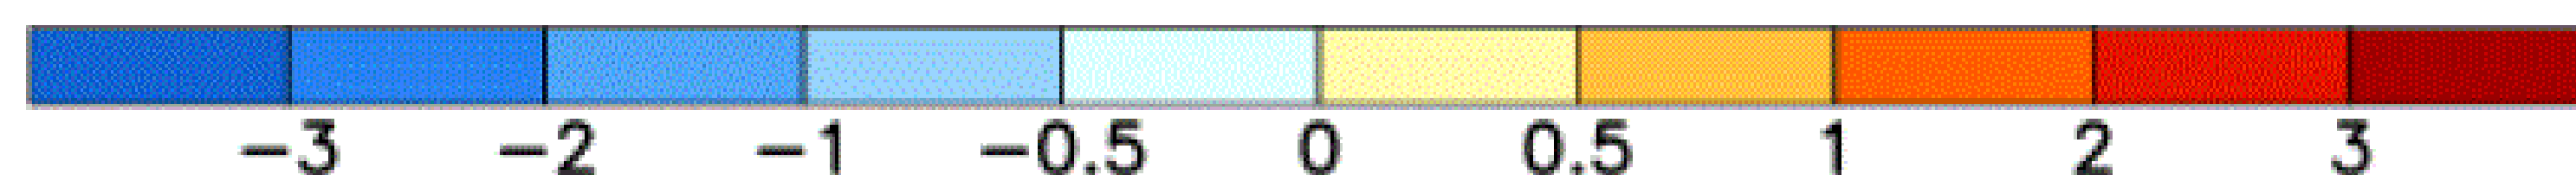

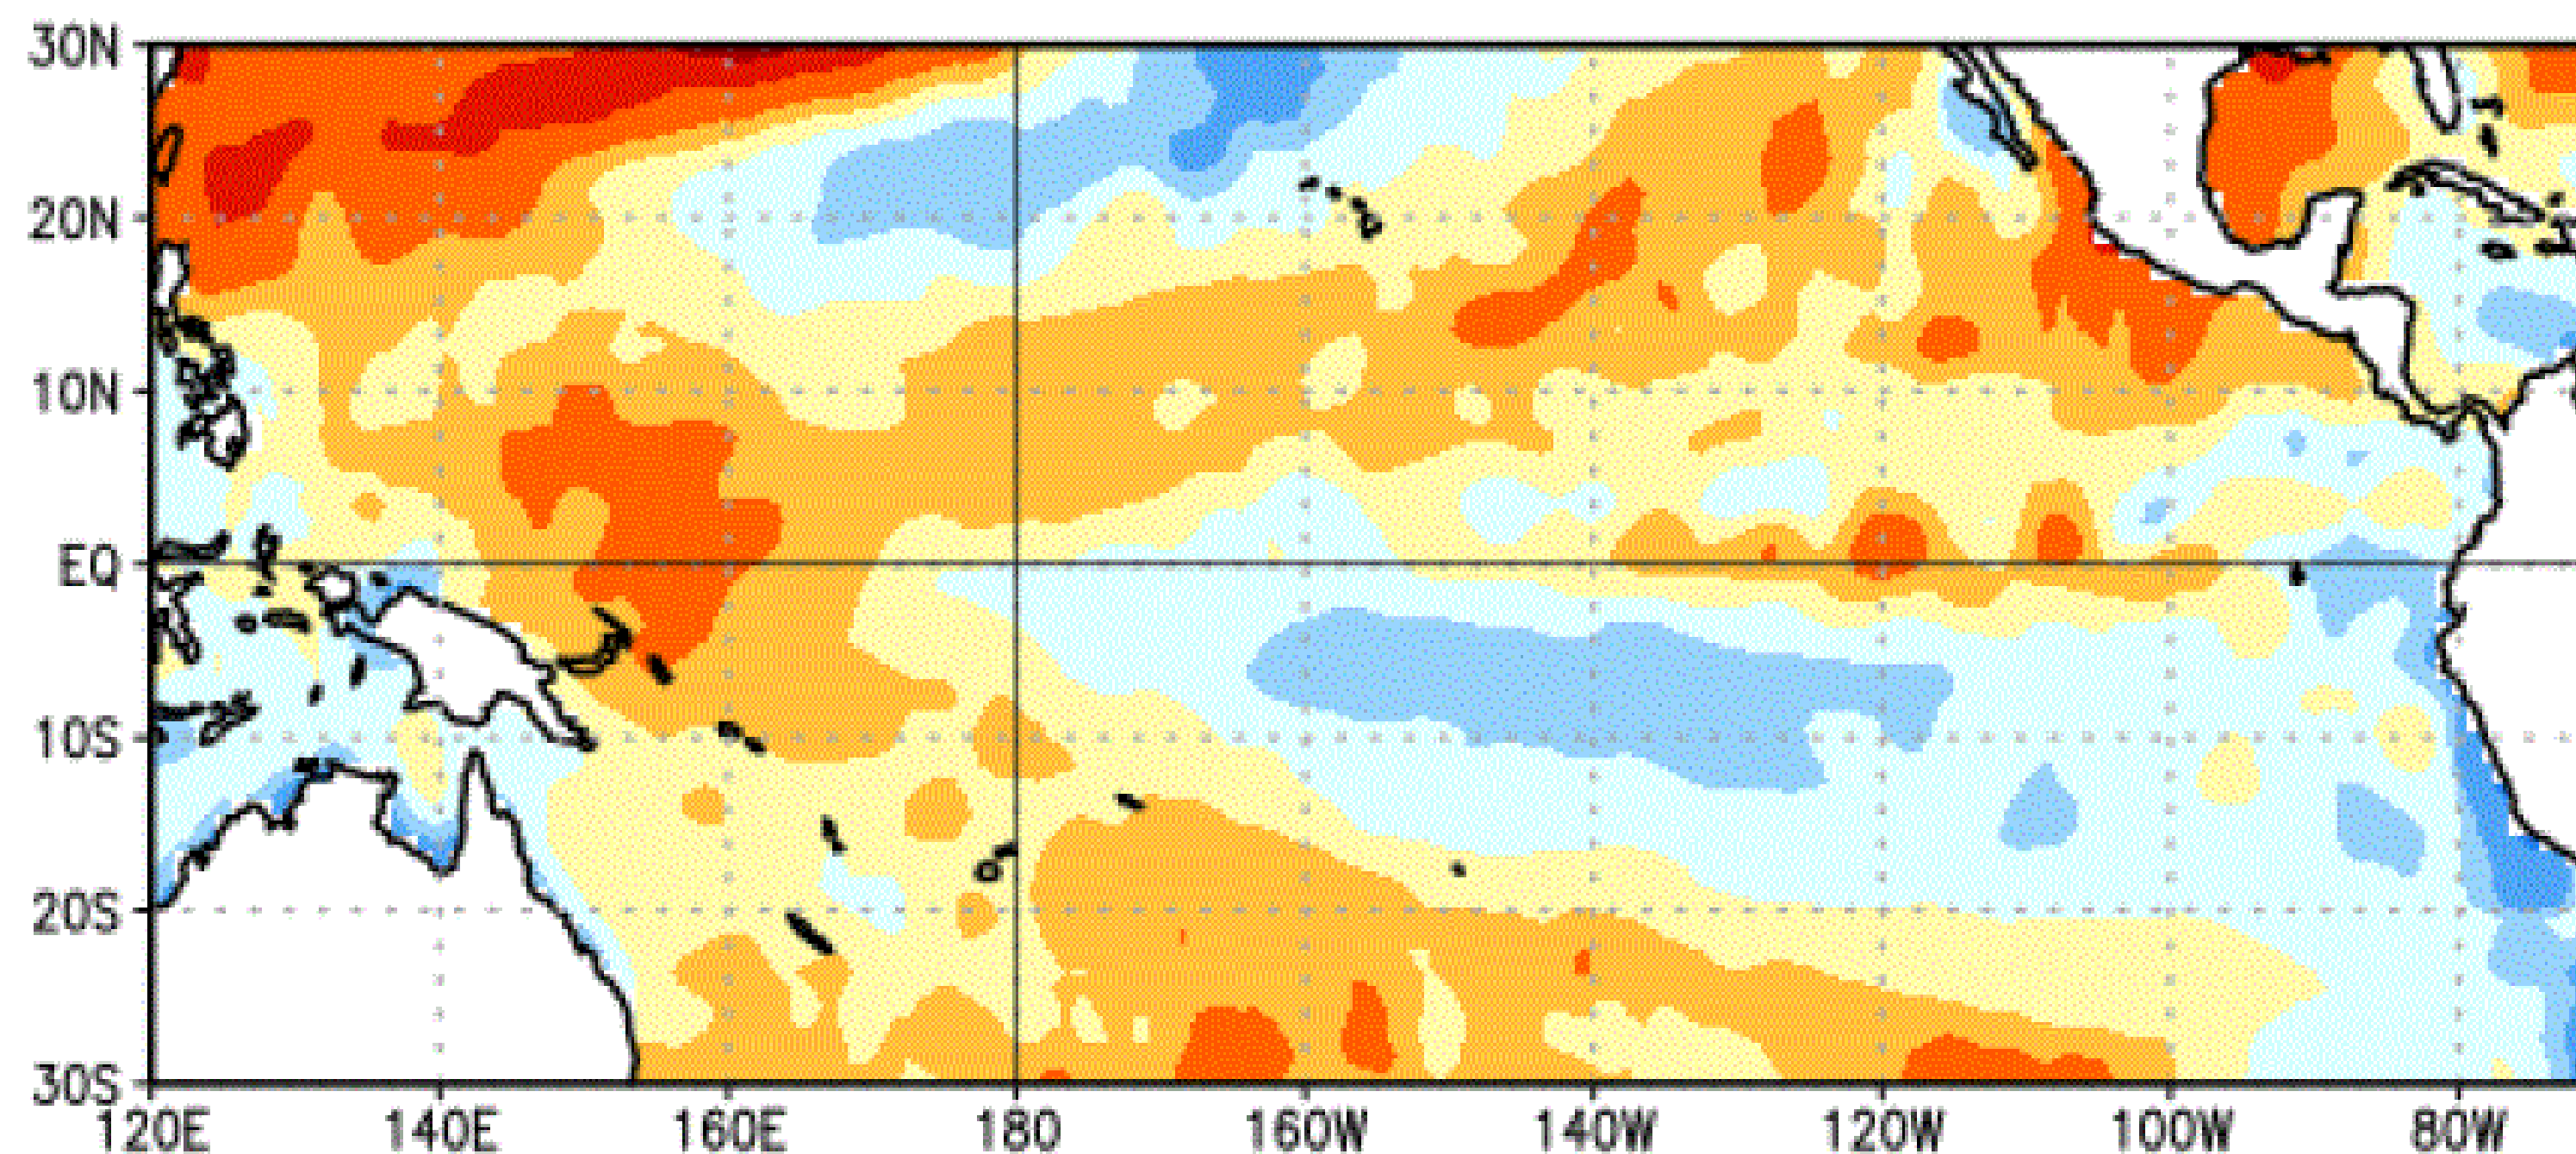

Presentation will address:

- Current ENSO condition
- ENSO Impacts on the Pacific region
- Focus on ENSO-sensitive States and Countries within the Pacific region.
- Overview of forecasts of the current La Niña 2017-18 event.
- Final overview of impacts of the developing El Niño 2018-2019 event.

ENSO Alert System Status: **El Niño Watch**
