A storm system moved from the Southern Rockies across the Southern Plains on the 18th and 19th. Precipitation developed across eastern Oklahoma and northwestern Arkansas late on the 18th, and transitioned to snow during the morning hours of the 19th. The heaviest snow fell across far southeastern Oklahoma and west central Arkansas as the surface low pressure system translated across southern Oklahoma and into central Arkansas. By the time the precipitation ended midday on the 19th, four inches of snow had fallen in portions of Franklin County.
