Creek County N of Sapulpa	07	1630CST- 1700CST			0	0	?	0	Flash Flood

Thunderstorms during the afternoon of May 7th produced very heavy rainfall which resulted in flash flooding in parts of northeast Oklahoma. Serious street flooding occurred in the city of Tulsa, where numerous streets were closed and several vehicles were stranded in high water up to 4 feet deep. Numerous creeks in the Tulsa and Owasso areas overflowed their banks, and water entered some homes on the west side of Tulsa and on the east side of Owasso. High water flooded a bridge at 36th Street North and Osage Drive 5 miles northwest of Tulsa, and 1 person had to be rescued from a stranded van on the bridge. Widespread street flooding also occurred in Cleveland, Bristow, and Sperry, and water covered roads to a depth of 1 foot north of Sapulpa in the Sahoma Lake and Pretty Water Lake areas.

Okfuskee County 3 ESE Okemah	07	1638CST	0.1	30	0	0	4	0	Tornado (F-0)
---------------------------------	----	---------	-----	----	---	---	---	---	---------------

A tornado touched down briefly 3 miles east southeast of Okemah at 1638CST. This F-0 tornado damaged several homes and downed power lines.

Severe thunderstorms moved across eastern Oklahoma during the evening of May 7th. Widespread wind damage occurred in the city of Tulsa

between 2005CST and 2030CST. Numerous homes, businesses, and vehicles in Tulsa were damaged by the winds, and numerous trees, power lines, fences, and signs were blown down throughout the city. Winds were estimated at 70 miles an hour at the National Weather Service Office in Tulsa. Lightning also started several house fires in the city of Tulsa. Strong thunderstorm winds damaged 50 to 60 mobile homes at the Riverbend Trailer Park 2 miles north of Bixby, and 1 resident of the park was injured. 2 mobile homes were damaged by strong winds 4 miles south of Glenpool, and several mobile homes were blown over 5 miles east of Big Cabin. Several trees and power poles were also blown down 5 miles east of Big Cabin.

Strong thunderstorm winds in Pryor blew gas pumps over and blew part of the roof off a Circle K store. A barn was blown down 2 miles south of Afton, and strong winds damaged a barn roof in Cookson. Strong thunderstorm winds blew down power poles in Haskell, and power poles and telephone poles were blown down by strong winds just west of Coweta. Numerous trees, power lines, and signs were blown down in Bartlesville, and trees, power lines, and transformers were blown down in Bristow. Power lines and 2 trees were blown down 1 mile west of Bernice, and power lines were blown down across a road just northwest of Grove. Trees were blown down across a road 3 miles north of Jay, and a large tree was blown down onto State Highway 80 2 miles north northeast of Fort Gibson.

Strong thunderstorm winds blew down trees in Pawnee, in Terlton, in Paden, 5 miles south of Pawhuska, in Okmulgee, in Hanna, in Stidham, in Vivian, near Bernice, 8 miles north of Grove, and 5 miles north northwest of Sallisaw. 60 mile an hour winds blew trees down in Claremore, and strong winds blew down large tree limbs in Wann, in Tahlequah, and in Canadian. Thunderstorm winds gusted to 75 miles an hour in Picher and to 60 miles an hour in Foraker, in Sand Springs, and 10 miles west of Jay. Half dollar size hail fell 4 miles south of Glenpool, and quarter size hail fell 2 miles west of Talihina. Dime to nickel size hail fell at numerous other locations in eastern Oklahoma.

Severe thunderstorms moved across eastern Oklahoma during the evening of May 23rd. Thunderstorm winds estimated at 70 miles an hour in McAlester destroyed a car wash, tore the roofs off 2 buildings, and overturned 2 truck trailers in the northeast part of town. Windows were blown out of a flower shop in downtown McAlester, and numerous power lines were blown down in McAlester. Strong thunderstorm winds blew down trees and power lines in Locust Grove and in Stigler, and power lines were blown down from Chouteau to Locust Grove. Trees were blown down by strong thunderstorm winds in Bixby, near Yanush, and 0.75 miles east of Ketchum. Trees were blown down by 60 mile an winds in Quinton, and a large tree was blown down by strong winds in Fairland.

Strong thunderstorm winds blew down large tree limbs 5 miles east of Morris, in Tiawah, just west of Coweta, and in Wister. Large tree limbs were also blown down at the intersection of 81st Street South and 129th East Avenue in Broken Arrow, and thunderstorm winds gusted to 60 miles an hour at the intersection of 77th Street South and Riverside Drive in the city of Tulsa. Thunderstorm winds also gusted to 60 miles an hour in Okemah, 1 mile east of Hectorville, in Bernice, and in Grove. Nickel size hail fell 10 miles west southwest of Okmulgee, and dime size hail fell at Bearden, 3 miles east of Boley, and at Okemah.

Haskell County

Le Flore County Spiro	24	1655CST			0	0	?	0	Hail (0.75)

Severe thunderstorms developed in southeast Oklahoma during the late afternoon of May 24th. A tornado touched down just northwest of McAlester at 1640CST and remained nearly stationary until lifting at 1650CST. This F-0 tornado damaged a dairy barn and was apparently a "landspout" type tornado which formed within a developing rainshower. Golfball size hail fell 2 miles south of Keota, and dime size hail fell 5 miles east of Keota and at Spiro.

Creek County Sapulpa-W of Kiefer	26	0815CST- 1200CST			0	0	5	0	Flash Flood
-------------------------------------	----	---------------------	--	--	---	---	---	---	-------------

Thunderstorms produced very heavy rainfall which resulted in flash flooding from Sapulpa to west of Kiefer. Widespread street flooding occurred in Sapulpa, and high water flooded numerous bridges and entered several buildings in Sapulpa. One building in downtown Sapulpa collapsed as a result of the flooding. Nickel Creek overflowed its banks near 81st Street and 45th West Avenue, and water from the creek entered several homes. Skull Creek also overflowed its banks west of Kiefer, and several homes in this area were also flooded.

Severe thunderstorms developed in northwest Arkansas during the evening of May 13th and continued into the very early morning of May 14th. The storms produced a total of 3 tornadoes, as well as large hail and damaging winds.

The first tornado touched down briefly 4 miles northwest of Gentry at 1858CST. This F-0 tornado downed power lines but did not cause any structural damage. The second tornado touched down briefly 2 miles west of Rogers at 1946CST. No damage occurred with this F-0 tornado. The third tornado touched down briefly 10 miles west of Huntsville at 2157CST. No damage occurred with this F-0 tornado.

Strong straight-line winds downed trees and several large tree limbs near Withrow Spring State Park 3 miles north of Huntsville. Very large hail also accompanied some of the storms. Softball size hail fell at Monte Ne, and baseball size hail fell near Gravette. Hail ranging from 1 to 2 inches in diameter fell at the Bentonville Airport near Bentonville, and golfball size hail fell at Spring Valley and at Hindsville. Golfball size hail broke car windshields 2 miles east of Springdale, and dime to nickel size hail fell at several other locations in northwest Arkansas.

Very heavy rainfall from the thunderstorms also resulted in flash flooding. Many streets and county roads were flooded near Lowell, and secondary roads were flooded near Withrow Spring State Park 5 miles north of Huntsville.

Clifty	24	0000CST			0	0	3	0	TSTM Wind

Severe thunderstorms moved across northwest Arkansas during the late evening of May 23rd and the very early morning of May 24th. Strong thunderstorm winds destroyed an office trailer at a construction site in Fayetteville, and the windows were blown out of a 40 foot by 60 foot metal building in the same location. Some long, half-ton pipes at the

construction site were rolled over 100 feet by the wind through a chain-link fence. Thunderstorm winds gusted to 60 to 70 miles an hour in Eureka Springs, and a barn framing was destroyed by strong winds in Clifty.
