

**WESTERN REGION TECHNICAL ATTACHMENT  
NO. 90-44  
December 31, 1990**

**INDEX OF 1990 TECHNICAL ATTACHMENTS**

90-01	Jan	02	Potential Bomb Turns Dud
90-02	Jan	16	Beware of the Initial Analysis
90-03	Jan	23	A Satellite-derived Climatology of Polar Low Evolution in the North Pacific
90-04	Jan	23	Special Climate Summary
90-05	Jan	30	850 mb Temperature Verification Over Washington State
90-06	Feb	06	What Is COMET?
90-07	Feb	13	Evaluating Vertical Motion or Why Is It Snowing?
90-08	Feb	27	Why Is It Not Snowing?
90-09	Mar	06	El Nino/Southern Oscillation (ENSO)
90-10	Mar	13	AFOS System Z Front-End Processor
90-11	Mar	27	Some Thoughts on Drought, Precipitation Climatology, and Methodology
90-12	Apr	03	Where Did The Rain Come From?
90-13	Apr	10	Cold Season 1989-1990 Verification of the 120 Hr 500 mb Forecasts
90-14	Apr	17	Operational Problems Associated With West Texas Dry Microbursts
90-15	Apr	24	Global Warming: A Dissenting Opinion
90-16	May	01	A Case Study on the Significant Atmospheric Cooling Which Resulted in Heavy Snowfall Over Portions of the Middle Atlantic Region on January 8, 1990
90-17	May	08	Mesoscale Forecast Event in Oregon
90-18	May	29	Global Model Forecasts of the Great Britain Storm of 25 January 1990
90-19	Jun	05	Radio Transmission Licensing Requirements
90-20	Jun	12	NMC Models Update
90-21	Jun	19	A Simplified Description of NEXRAD Range Folding and Velocity Aliasing
90-22	Jul	03	Verification of the (Edgar) Johnson Temperature Forecast Aid at Seattle
90-23	Jul	10	Solar-QBO-Weather Relationship?
90-24	Jul	10	The Heat Index "Equation" (or, More Than You Ever Wanted to Know About Heat Index)
90-25	Jul	17	Example of Arc-Cloud Interaction
90-26	Jul	24	Atmospheric Predictability
90-27	Jul	31	El Nino/Southern Oscillation (ENSO)
90-28	Aug	07	Model Output Statistics--Which is Better, LFM or NGM?
90-29	Aug	14	AMS Short Course Review NEXRAD Applications and the Media - June 20, 1990 - Boulder, Colorado
90-30	Aug	21	Sundowner Winds and the June 25-28, 1990 Santa Barbara Fire
90-31	Aug	28	Downslope Windstorms and Mountain Waves
90-32	Sep	11	Pacific Northwest QPF Verification 1989-1990
90-33	Sep	18	Value In Meteorologists and Hydrologists Working Together
90-34	Sep	25	LFM in the North, NGM in the South?
90-35	Sep	25	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 90/7
90-36	Oct	02	Large Hail in the West
90-37	Oct	23	Extended Guidance Predictability

90-38	Oct	30	Plans For Field Support Services at the WSR-88D Operational Support Facility
90-39	Nov	06	Meteorology in the News
90-40	Nov	20	El Nino/Southern Oscillation (ENSO)
90-41	Nov	20	New Centralized Statistical Guidance Schedule
90-42	Dec	11	A Verification Study of the NMC 3-5 Day Forecast Product Using the Anchorage WSFO Surface Analysis
90-43	Dec	18	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 90/10
90-44	Dec	31	Index of 1990 Technical Attachments
