

**WESTERN REGION TECHNICAL ATTACHMENT  
NO. 91-51  
December 31, 1991**

**INDEX OF 1991 TECHNICAL ATTACHMENTS**

91-01	Jan	08	Forecasting Large Changes in Summertime Spokane, Washington Minimums
91-02	Jan	15	Devastating Arctic Outbreak in the Sacramento Valley
91-03	Jan	22	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 91/1
91-04	Jan	29	A Quick Comparison of the 1990 Freeze With Past Freezes in the Redlands Fruit Frost District
91-05	Feb	05	Characteristics of a Mesoscale Snow Event Over Northern Utah
91-06	Feb	12	How Could the NGM MOS PoPs Be 90 or 100% When the NGM QPF Apparently Called For No Precipitation?
91-07	Feb	19	Statement on Climate Change and the Greenhouse Effect
91-08	Feb	19	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 91/2
91-09	Feb	26	Forecasting a Bomb
91-10	Mar	05	A Different Way To Look At Model Output
91-11	Mar	19	Meteorological Alert Distribution System (MADS) - WSNZO
91-12	Mar	26	What's the Latest at NMC?
91-13	Apr	02	Highlights From the SSD Chiefs Conference
91-14	Apr	16	Why do QG Diagnostics and NMC Models Often Differ?
91-15	Apr	23	March 1991 Surface Cyclone Performance of the Aviation and Nested Grid Models
91-16	Apr	30	Interpreting NGM FOCUS Output
91-17	May	07	Special Climate Summary
91-18	May	07	A Lightning Quick Review
91-19	May	14	Jets and Severe Convection in the West
91-20	May	21	Blocking: How Well Do the Models Forecast It?
91-21	May	28	Dugway Profiler Captures First Lake-Effect Snow Storm of Season
91-22	Jun	04	GOES Update
91-23	Jun	11	VIL--A Pragmatic View
91-24	Jun	18	Managing Application Programs In An Era of Change
91-25	Jun	25	Parallel Processing in Forecast Systems Laboratory (FSL)
91-26	Jul	02	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 91-03
91-27	Jul	09	AVN/NGM Model Comparison
91-28	Jul	23	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 91-04
91-29	Jul	23	Notes on a Visit to NMC
91-30	Jul	30	Using the 700-500 MB Lapse Rate to Forecast Intense Convection
91-31	Jul	30	NMC Update
91-32	Aug	05	Some Items of Interest From the First Symposium on Volcanic Ash and Aviation Safety
91-33	Aug	13	Thunderstorm Development at Intersecting Outflow Boundaries
91-34	Aug	20	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 91-05
91-35	Aug	20	A Water Vapor Image Feature Related to Severe Thunderstorms
91-36	Sep	04	A Classic Example of Cyclogenesis as Seen on Satellite Imagery
91-37	Sep	10	Equivalent Potential Temperature (Theta-e) Applications
91-38	Sep	17	Modifying Arizona Valley Raobs For Mountain Locations
91-39	Sep	24	Divergence and Diffluence Are Not Synonyms
91-40	Sep	24	Population Growth and Its Effects on Temperatures at Reno-Cannon International Airport

91-41	Oct	01	A Hydrometeorological Review of the Wenatchee River Flood of November 1990
91-42	Oct	08	A New Verification Scheme
91-43	Oct	15	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 91/6
91-44	Oct	15	Summary of Recent Changes in Global Forecast Models
91-45	Oct	22	Satellite Data Eclipse Periods
91-46	Oct	29	El Nino in Tropical Pacific May Affect Climatic Conditions Worldwide
91-47	Nov	19	El Nino/Southern Oscillation (ENSO) Diagnostic Advisory 91/7
91-48	Dec	10	Applying Trenberth's Approximation to the Omega Equation
91-49	Dec	17	Another Look at Global Warming
91-50	Dec	24	Discontinuous Vertical Motion Diagnosed Through PIVA
91-51	Dec	31	Index of 1991 Technical Attachments
